

Tech.App Launcher – 1.0.1.4 Update

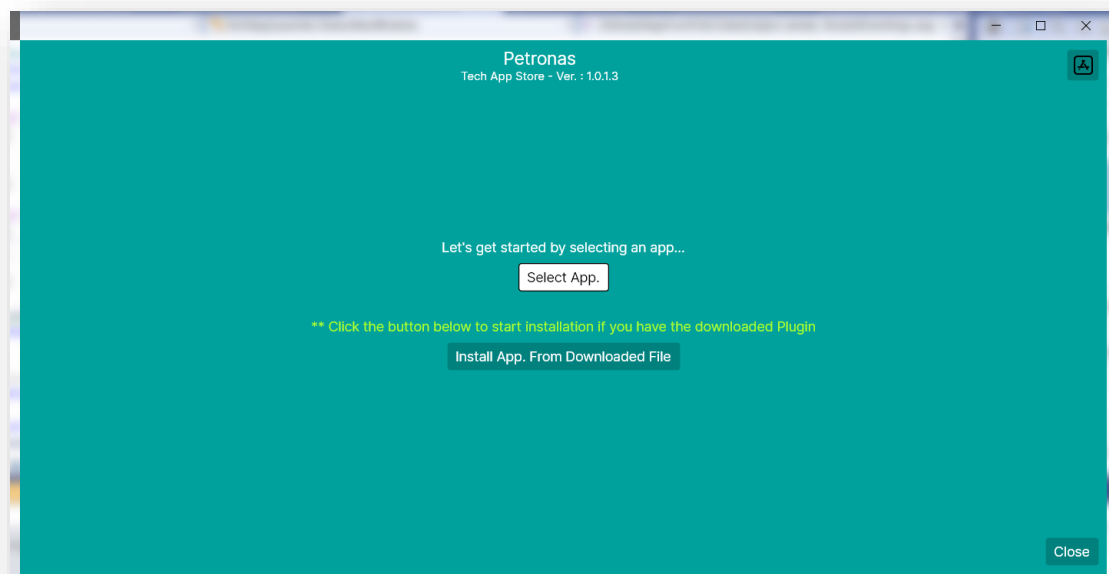

1. List all the apps has been installed in the system.

A list box lists out all the apps has been installed in the system.

2. The list of apps will not be appeared if nothing has been installed to the system.

The main screen will remain as before if there are no apps has been installed to the system. Hence, the list box is being hidden.

3. Uninstall App.

Added the features of uninstall app.
